

Narrative Budget 2023: Mission and Justice Ministries

Our Community and Global Missions ministries partner with PC(USA), local, and global organizations to share our abundant resources with our neighbors both near and far. These ministries also include the work of our Social Justice Committee as we seek to address systemic racism and advocate justice and equity for all. These ministries are important to DCPC for the following reasons:

- Our work enables us to connect with mission partners who are working locally and throughout the world by both supporting them financially and also visiting and working alongside them in their various contexts.
- We focus our giving in ways that shares God's love in tangible ways by supporting education, housing, hunger programs, and health initiatives.
- We help educate and connect our members to the real needs in the world and provide opportunities for people to answer God's call to service.
- We strive to provide meaningful ways to love our neighbors and to answer God's call to do justice, love kindness, and walk humbly with God.
