

A decorative vertical scroll with a light pink and yellow gradient, featuring several colorful butterflies in various sizes and colors (orange, green, purple, blue, yellow) flying upwards. The scroll starts at the top and ends in a small loop at the bottom.

Curriculum for 18 Month Class

Our 18 months class offers a unique opportunity for our youngest students with 2 loving and caring teachers. There is a 1:4 teacher/student ratio. This class encourages students in social/emotional growth. Children learn to separate successfully from parents at their own pace, while learning to expand their acquaintances and bonds with adults and their peers. Our toddlers explore the world around us with daily stroller rides on the beautiful campus of Davidson College, as they enjoy the sights and sounds of nature. Art projects and science explorations are offered for further development. Books are read daily and accessible in the room for individual enjoyment. This class prepares students to be successful in our 2-year-old program and the future milestones that await them.
